

# OLDCASTLE STORMWATER MASTER PLAN

## NOTICE OF STUDY COMPLETION

The Town of Tecumseh has now completed the Oldcastle Stormwater Master Plan to address the stormwater needs of the Oldcastle Hamlet area. This study has been conducted in accordance with the requirements of Approach 2 (Phases 1 and 2) of the Municipal Class Environmental Assessment (EA) which is an approved process under the Environmental Assessment Act. Funding for this study is being provided in part through the National Disaster Mitigation Program (NDMP) which is a federal program that provides funding support for flood mitigation projects. The Government of Canada administers the NDMP and provides NDMP funding to the Provincial and Territorial governments who may redistribute funding to eligible entities such as the Town of Tecumseh. In Ontario, the NDMP is administered by the Ministry of Municipal Affairs and Housing. (Note: Views expressed in this study are the views of the Town of Tecumseh and do not necessarily reflect those of the Province and the Government of Canada.)

In addition, a request may be made to the Ministry of the Environment, Conservation and Parks (Ministry) for an order requiring a higher level of study (i.e. requiring an individual/comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g. require further studies), only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. Requests on other grounds will not be considered. Requests should include the requester's contact information and full name.

Requests should specify what kind of order is being requested (request for conditions or a request for an individual/comprehensive environmental assessment), how an order may prevent, mitigate or remedy potential adverse impacts on Aboriginal and treaty rights, and any information in support of the statements in the request. This will ensure that the Ministry is able to efficiently begin reviewing the request.
